MEMORANDUM FOR: Acting Director, OSA

1. I should just like to make a matter of record my feelings on the highly commendable job done by the OSA people during your recent absence.

2. It proved to be a period of tremendous activity, both in the aircraft and satellite fields, yet Mr. Cunningham and all of the personnel involved carried on very effectively, even though very short-handed.

3. I am sure you will be gratified to know that you have such a competent group to follow through even when you are not around.
